

**TILDE GRYNNERUP**

Danish artist, based in Copenhagen.

Tilde Grynnerup (b. 1973) is a Danish multidisciplinary artist living in Copenhagen. Working across textile, wood, installation, photography, and film, she explores a wide range of materials, embracing experimentation as a central part of her practice.

With a background in songwriting and fashion, she combines text and textile in her work. Her woodworking skills, inherited from her carpenter father, are developed in a shared workshop near a forest, creating a dialogue between nature and the city, as well as between soft and hard materials such as fabric, wood, and brass.
