

## CLARA CEBRIÁN

Spanish artist, based in Madrid, Italy and Mexico.

Clara Cebrián (b. 1991) is a Spanish artist living and working between Madrid, Italy and Mexico, trained at the London College of Communication. She creates a colourful world that is uniquely her own, combining painting, drawing, installation, performance, animation and video.

Her practice explores the circulation of objects, the construction of value, and contemporary systems of production. Through collective structures and fictional devices, she develops projects that operate between the artistic and the economic.
